presents:

# "Images of Mary"

Next to Jesus himself Mary holds a most prominent role in the life of the church. Far too often, though, her humanity has been minimized to a point that deprives us of fully appreciating her "yes" to God. Simeon rightly predicted that her role would pierce her heart "so that the thoughts of many hearts may be revealed" (Luke 3: 36). When life pierces our heart a void is created. Mary, model of faith, witnesses a response that fills the emptiness and transforms hole-ness into wholeness. Through scripture, art, music, and our own experiences we will reflect upon how we can weave her story into our own. A special emphasis will be given to her seven sorrows.
